

Atomic Energy Central School, Anupuram

Class:- III

Name:- _____

Roll no. _____

Lesson – 9

It's raining

I. Fill in the blanks:

1. Before it rains, we can see _____ clouds in the sky.
2. There are _____ colours in the rainbow.
3. We make _____ and float in water when it rains.
4. Plants and trees start _____ when they do not get enough water.
5. We feel _____ when it rains.

Draw pictures of any four sources of water and write their names.

A large rounded rectangular box with a green border, divided into four quadrants by a vertical and a horizontal line. This box is intended for students to draw and label four different sources of water.

II. Answer the following:

1. How animals get water?

2. Can we take shelter under trees when there is heavy lightning?
Why?

3. Why farmers are unhappy when it rains heavily?

4. From where do the plants growing around your home get
water?

5. What all do the clouds do?
